Conduct Social Research Work

November/December 2025

SECTION A (40 MARKS)

Answer ALL questions in section A

1. In social research, defining the scope helps in identifying what will be studied. List FOUR characteristics of a good research title. (4 Marks)
2. Data collection is a critical stage in social research. Mention FOUR methods of data collection. (4 Marks)
3. Research design gives a clear plan for conducting a study. Name FOUR types of research design. (4 Marks)
4. In any social research work, data analysis is important. State FOUR methods of data analysis. (4 Marks)
5. Social research work is guided by ethical considerations. List FOUR ethical principles in social research. (4 Marks)
6. Literature review provides a foundation for the research. Identify FOUR importance of literature review in social research. (4 Marks)
7. In preparing a research proposal, budgeting is essential. List FOUR items that must be included in a research budget. (4 Marks)
8. Observation is one of the most used data collection methods. Mention FOUR types of observation techniques in research. (4 Marks)
9. Formulating objectives is a major step in planning research. Identify FOUR qualities of good research objectives. (4 Marks)
10. Social research work produces knowledge that is applicable in solving social problems. Mention FOUR significances of social research. (4 Marks)

SECTION B (60 MARKS)

*Answer question **ELEVEN (11 Compulsory)** and any other **TWO (2)** questions in this section*
Case Study.

11. In a rural community called *Bright Valley*, a team of social researchers set out to study the causes of school dropouts among teenagers. They used questionnaires, interviews, and observation as data collection tools. However, they faced several challenges. Many parents were reluctant to give information, some teenagers refused to participate due to fear of stigma, and financial constraints limited the scope of the study. Despite these challenges, the researchers managed to collect some data, which showed that poverty, early marriages, peer pressure, and lack of parental guidance were the main causes of dropouts.
- a) Explain FIVE challenges that the researchers faced during data collection. (10 Marks)
 - b) Discuss FIVE ways in which the researchers could improve their data collection process in future studies. (10 Marks)
12. Social research, a literature review is an essential step that involves examining existing studies, theories, and findings related to the research topic.
- a) Discuss FIVE benefits of literature review in the process of social research. (10 Marks)
 - b) Discuss FIVE challenges researchers may encounter while conducting a literature review. (10 Marks)
13. Secondary data refers to information that has already been collected, processed, and documented by other researchers, organizations, or institutions.
- a) Discuss FIVE limitations of relying on secondary data in social research. (10 Marks)
 - b) Explain FIVE advantages of using secondary data in social research. (10 Marks)
14. A research problem is the foundation of any social research study. Clearly defining the problem helps the researcher focus the study, formulate objectives, and guide the methodology.
- a) Describe FIVE characteristics of a good research problem. (10 Marks)
 - b) Explain FIVE sources from which a researcher can identify a research problem. (10 Marks)
