

Demonstrate Occupational Safety and Health Practices

March /April 2024

SECTION A: Multiple Choice Question (20 Marks) *In*

this section, each question carries one (1) mark.

1. Vibrations and radiations are examples of _____.
 - A. Chemical hazards
 - B. Physical hazards**
 - C. Electrical hazards
 - D. Psycho-social hazards
2. Highlight an example of a biological hazard.
 - A. Virus**
 - B. Fatigue
 - C. Old age
 - D. Alcoholism
3. The shape of a warning sign is _____.
 - A. Circular
 - B. Square
 - C. Triangular**
 - D. Rectangular
4. The only thing that can keep you safe consistently is _____.
 - A. Wearing Personal Protective Equipment**
 - B. Trusting your guts
 - C. Reporting to work on time
 - D. Safety rules
5. A worker who requires foot protection in the work environment wants to prevent_____.

- A. Fire
 - B. Hot and poisonous fumes
 - C. Slippery floor
 - D. **Penetrating and sharp materials**
6. Occupational safety and health standards is concerned with health and welfare of which category of people?
- A. Co-workers
 - B. Family members
 - C. Employees and customers
 - D. **All of the above**
7. The following are types of fire extinguishers, except?
- A. Foam
 - B. Water
 - C. **Hydrogen**
 - D. Carbon dioxide
8. As per the colour code, a red colour indicates_____.
- A. **Fire prevention**
 - B. Radio-active hazards
 - C. First-aid equipment
 - D. General caution
9. What is the legal responsibility of an employer with regards to health and safety? A.
- Charging employees for replacing damaged PPE.
- B. **Providing safe systems of work for all employees.**
 - C. Taking out additional insurance of dangerous work.
 - D. Ensuring that only one member of staff works on dangerous job.

10. _____ is important because when you are doing a job and your body is stressed by an awkward posture your musculoskeletal system is affected.
- A. Hazard
 - B. Work
 - C. **Ergonomics**
 - D. Responsibility
11. Personal safety is an individual's ability to go about their everyday life free from threat or fear of _____ harm from others.
- A. Chemical
 - B. **Psychosocial**
 - C. Economics
 - D. Personal protective equipment
12. _____ is any source of potential damage, harm or adverse health effects on something or someone.
- A. Risk
 - B. **Hazard**
 - C. Work
 - D. Responsibility
13. Excessive noise and heat are examples of which hazards?
- A. **Physical**
 - B. Occupational
 - C. Chemical
 - D. Biological
14. Which one of the following is a potential electrical hazard?
- A. **Fire**
 - B. Extreme temperatures
 - C. Repetitive strain injuries

- D. Exposure to mould
15. The main objective of risk assessment is _____.
- A. **To evaluate hazards and minimize risks**
 - B. Remediation of contaminated sites
 - C. Hazard management
 - D. To know the sources of pollutants
16. Which one of the following is an administrative control measure applied in an organization?
- A. Assist workers in safe work practices
 - B. **Training**
 - C. Wearing of PPEs
 - D. Good house keeping
17. Volatile _____ material should be used in a well-ventilated area to reduce exposure.
- A. Non-hazardous
 - B. Vapour
 - C. **Hazardous**
 - D. Inefficient
18. Select the first step when conducting risk assessment.
- A. Evaluate the risk
 - B. **Identify the risk**
 - C. Review previous risk assessment
 - D. Update risk assessment
19. Harmful effects of chemical substances depend on the _____ and the exposure of that chemical.
- A. Vapour dust
 - B. Data
 - C. **Toxicity**

D. Fumes

20. What is the purpose of a safety audit in OSH management?

- A. Assessing employee productivity
- B. Identifying and correcting safety deficiencies**
- C. Analysing market risks
- D. Evaluating employee compensation

SECTION B: Short Response Questions (40 Marks)

These are guidelines to the assessor

21. Nekesa works in a tea factory as a general supervisor near her home. State **five** types of

Personal protective Equipment that she will request for her technicians. (5 marks)

- i. Foot Protection**
- ii. Body Protection**
- iii. Respiratory Protection**
- iv. Hand Protection**
- v. Hearing Protection**
- vi. Head Protection**
- vii. Eye and Face Protection**
- viii. Heat and Flame Protection**
- ix. Electrical Protection**

(Award 1 mark for each correct answer: max=5)

22. List **five** legal responsibilities of an employee with regards to health and safety standards.

(5 marks)

- i. Ensure his/her own safety and health and that of others**
- ii. At all times wear/use PPE properly when needed**

- iii. **Comply with the legal safety and health procedures/requirements given by the authority**
- iv. **Report to the supervisor any situation/hazards/risks**
- v. **Report to the supervisor any accident**
- vi. **Cooperate with employer's/organization safety and health standards put in place**
- vii. **Not to interfere with any safety and health measures put**
- viii. **Be in responsible behaviour in the workplace**

(Award 1 mark for each correct answer: max=5)

23. Highlight **four** examples of ergonomic hazards that a worker may encounter in a workplace. (4 marks)

- i. **Manual Handling of Heavy Loads**
- ii. **Lack of Breaks**
- iii. **Vibration**
- iv. **Inadequate Lighting**
- v. **Awkward Postures**
- vi. **Repetitive/continuous Motion**
- vii. **Poorly Designed Workstations**

(Award 1 mark for each correct answer: max=4)

24. Organizations at all-time need to prepare for emergencies and accidents. Highlight **four** emergency procedures that are used to address hazards. (4 marks) **i. Fire drill ii. First aid and medical response**

- iii. **Emergency Evacuation Procedures**
- iv. **Use of fire extinguishers**
- v. **Basic life support/ CPR**

- vi. **Disaster management/preparedness**
- vii. **Decontamination of chemical and toxic substances**

(Award 1 mark for each correct answer: max=4)

25. State **five** types of hazards that are likely to occur in a workplace. (5 marks)

- i. **Chemical hazards**
- ii. **Biological hazards**
- iii. **Physical agents/hazards**
- iv. **Psychosocial hazards**
- v. **Mechanical hazards**
- vi. **Electrical hazards**
- vii. **Musculoskeletal/Ergonomic hazards**

Award 1 mark for each correct answer: max=5

26. Main objective of OSH standards is to reduce cases of accidents. Outline **four** causes of accidents in a workplace. (4 marks)

- i. **Inadequate Personal Protective Equipment (PPE)**
- ii. **Human Error** iii. **Lack of Communication** iv. **Slippery or wet floors**
- v. **Equipment Malfunction**
- vi. **Poor Workplace Design**
- vii. **Lack of Awareness**
- viii. **Inadequate Training**

(Award 1 mark for each correct answer: max=4)

27. Identify **four** types of safety signs which are commonly used. (4 marks)

- i. **Danger signs**
- ii. **Warning signs**
- iii. **Notice signs**
- iv. **Caution signs**

v. Electrical signs

(Award 1 mark for each correct answer: max=4)

28. State **four** safety rules in a workplace. (4 marks)

i. Wear Personal Protective Equipment (PPE):

ii. Follow Proper Procedures: iii. Maintain a Clean and Organized

Workspace: iv. Report Hazards and Incidents

(Award 1 mark for each correct answer: max=4)

29. Outline **five** types of fire extinguishers? (5 marks)

i. Water Fire Extinguishers

ii. Foam Fire Extinguishers

iii. Dry Powder Fire Extinguishers

iv. Carbon Dioxide (CO₂)

v. Dry Chemical

(Award 1 mark for each correct answer: max=5)

SECTION C: Extended Response Questions (40 Marks)

Two questions are assessed in this section

30.

a) Every organization has a responsibility to control accidents from happening. Discuss **five** control measures that organization should put in place to ensure a safe working environment. (10 marks)

i. Risk assessment; Conduct thorough risk assessments to identify potential hazards in the workplace.

ii. Safety policies and procedures; develop and enforce comprehensive safety policies and procedures tailored to the specific risks of the organisation.

iii. Employee training and awareness; Provide regular safety training for employees and foster a culture of safety awareness.

- iv. **Personal protective equipment; Mandate the use of PPE's and properly maintain them.**
- v. **Emergency response plan; Develop and communicate clear emergency response plans for various scenarios. Conduct regular drills to familiarize employees with emergency procedures.**
- vi. **Equipment maintenance; Implement a regular maintenance schedule for all machinery and equipment to ensure they are in proper working condition.**
- vii. **Safety inspections and audits; Regularly conduct safety inspections and audits to identify and rectify potential hazards.**

(Award 1 mark for correct stating, 1 mark for correct explanation max=10)

- b) An office worker developed chronic back pain and wrist pain, emphasizing the importance of ergonomic assessments to prevent such issues in the workplace. Explain **five** causes of ergonomic hazards. (10 marks)

- i. **Poorly Designed Workstations: Includes improperly adjusted chairs, desks, and computer monitors etc leading to discomfort and musculoskeletal issues.**
- ii. **Improperly Positioned Computer Equipment: Poor placement of computer monitors, keyboards, and mice can lead to awkward postures and repetitive strain injuries.**
- iii. **Repetitive Motion: Jobs that involve repetitive tasks or motions, such as continuous typing or assembly line work, can lead to overuse injuries and musculoskeletal disorders over time.**

- iv. **Inadequate Lighting:** Poor lighting conditions can cause eye strain, headaches, and discomfort. Insufficient or excessive lighting can contribute to visual discomfort and may affect overall productivity.
- v. **Inadequate Training:** Lack of proper training on ergonomic principles and safe work practices can result in workers adopting poor habits and postures, increasing the risk of ergonomic hazards.
- vi. **Heavy Lifting and Awkward Postures:** Jobs that involve frequent heavy lifting, awkward postures, or forceful exertions can contribute to musculoskeletal injuries.
- vii. **Vibrations:** Workers exposed to excessive vibrations, such as those from heavy machinery or vehicles, may experience discomfort and musculoskeletal problems over time.
- viii. **High Force Requirements:** Jobs that require excessive force to perform tasks, such as gripping tools with significant force, can lead to injuries and ergonomic hazards.
- ix. **Insufficient Breaks and Recovery Time:** Inadequate rest periods and breaks can contribute to fatigue and increase the likelihood of ergonomic hazards.

(Award 1 mark for correct stating, 1 mark for correct explanation max=10)

31.

- a) Discuss **five** indicators of hazards at the workplace. (10 marks)
 - i. **Unusual noise or sounds;** It can indicate issues with machinery or equipment, such as worn-out parts or malfunctioning components.
 - ii. **Odors and unusual smells;** It can indicate chemical leaks, gas emissions, or other hazardous substances present in the workplace.
 - iii. **Visible dusts or particles;** This signifies poor air quality, potential respiratory hazards or combustion risks.

- iv. **Inadequate ventilation; Poor ventilation can lead to the accumulation of harmful gases, fumes, or airborne contaminants posing respiratory hazards to employees.**
- v. **Lack of warning signs; Absence of proper warning signs or labels fail to communicate potential hazards, such as slippery floors, high voltage areas.**
- vi. **Inadequate PPE's; Employees not wearing or using appropriate PPE for specific tasks may indicate a failure to address potential hazards associated with those tasks.**

b) As the newly appointed safety committee chair for your organization, you are alarmed by the recurring workplace accidents. Discuss **five** measures aimed at enhancing safety. (10 marks)

- i. **Conduct workplace audits and risk assessments at the facility level.**
- ii. **Oversee compliance with facility design and building codes for new construction.**
- iii. **Support procurement systems for quality and adequate PPEs and other OSH supplies within the facility.**
- iv. **Review causes of accidents and incident reports for the rehabilitation and compensation of injured employees.**
- v. **Ensure new staff undergo induction and orientation on OSH issues.**
- vi. **Publicize, promote, and enforce guidelines and procedures among supervised staff.**

(Award 1 mark for correct stating, 1 mark for correct explanation)

32.

- a) Explain **four** contingency measures in controlling hazards. (8 marks)

- i. **Evacuation:** Swift and orderly relocation of individuals from a hazardous area to a safe location during emergencies to minimize the risk of harm or injury.
- ii. **Isolation:** Creating a barrier or restricting access to contain and prevent the spread of hazards, isolating affected areas or materials from the rest of the environment.
- iii. **Decontamination:** The process of removing or neutralizing hazardous substances from people, equipment, or the environment to prevent further exposure or contamination.
- iv. **Engage Emergency Personnel:** Activating and involving trained professionals, such as firefighters or paramedics, to respond to and manage emergencies effectively, ensuring a coordinated and skilled approach to the situation.

(Award 1 mark for correct stating, 1 mark for correct explanation)

- b) According to occupational safety and health (OSH) regulations, employers are obligated to ensure a secure work environment. Elaborate **six** primary responsibilities that

employers have in this regard. (12 marks)

- i. **Provide enough PPE's to employees.**
- ii. **Ensure a hazard-free workplace by adhering to OSH Act standards and using colour codes, posters, labels, or signs to alert employees to potential dangers.**
- iii. **Regularly inspect workplace conditions to ensure compliance with applicable OSHA standards.**
- iv. **Guarantee that employees have and use safe tools and equipment while properly maintaining them.**
- v. **Establish or update operating procedures, communicating them to ensure employee compliance with safety and health requirements.**

- vi. Provide safety training**
- vii. Develop and implement a written hazard communication program for workplaces with hazardous chemicals, including training on exposure hazards and precautions.**
- viii. Conduct medical examinations and training as required by OSHA standards.**
- ix. Post the OSHA poster outlining employee rights and responsibilities prominently in the workplace.**

(Award 1 mark for correct stating, 1 mark for correct explanation)
